And Rules and Procedures

Updated July 9, 2025

Collection 2: 2026

CALL FOR ENTRIES:

“Resonance: Perspectives through the Lens”
from the Artists of the American Society of Photographers

ASP members are invited to submit their artwork to be considered for one or more traveling exhibitions in 2026+. Images for the collection will be selected by curators and artists independent of ASP and PPA. This thought-provoking body of work will represent varied creation, printing, presentation methods, and subject matter, and will offer a look into what exceptional contemporary photographers are creating and the methods and techniques applied to achieve the final artwork.

TIMELINE:

The call for entry of the ASP’s curation for the Museum Project begins on **July 1 at 12:01 AM Eastern Standard Time**. All entries must be received through the official entry form found at www.asofp.com by **11:59 PM Eastern Standard Time on August 1**. Late entries cannot be accepted. By submitting an entry, each entrant agrees to the rules of the portfolio review and states that they are a member in good standing of ASP.

ASP will notify accepted entrants for the exhibition on **September 1**. Entrants whose work is selected into the collection will be asked to provide additional information about themselves and their work. Entrants must complete these additional requirements **on or before September 16** in order to participate in the exhibit. ASP may disqualify anyone who fails to respond to the notification on or before **September 16**. Accepted entry printed artwork must be received by **October 15** (receiving location to be determined).

WHO MAY ENTER:

Entrants must be current 2025-2026 ASP members in good standing at the time of submission and duration of the exhibit and subsequent exhibits to be eligible. First Time Degree Holders are eligible.

The ASP Museum Project Committee will have sole discretion in determining each entrant's eligibility.

COST OF ENTRY:

Membership in ASP must be held throughout any contracted exhibition time. Once an entrant is accepted, they will be required to sign up for auto renewal through www.asofp.com.

Salon fees must be remitted at the time of entry. Entrants may submit 4 images for \$125. Additional images may be submitted for \$30 per image. Members may enter a maximum of 10 images.

Entry Payment: From **July 1 - August 1**, go to www.asofp.com/museum-project/, click the link, and pay for your first four entries. Once paid, you will receive both the link to pay for additional entries, and a link to the form to enter your submissions.

If selected for the exhibit, entrants are responsible for all printing and the final presentation of their image. All artwork must be wired and ready for installation. Entrants are responsible for insurance as well as shipping to the first exhibit and from the last exhibit. Entrants are responsible for replacing their artwork in a timely manner if damage has occurred.

SALON SELECTION PROCESS:

Selections will be made by a panel of curators and artists independent of ASP and PPA. Selection decisions will be based on the panel's views on creativity, quality, originality, responsiveness to the prompt, and overall impact. ASP's Salon Panel will select an unlimited number of works, not by comparison against each entrant, but instead by taking the most qualified images for exhibition.

This selection process will create a collection of ASP artists' work for exhibition. Those selected are expected to be included in an exhibit of at least one showing.

Please do not contact curators, members, or board members about the status of entries or selection process.

Accepted artists grant ASP permission to publish the artwork image in the exhibition book, the website, an e-commerce site, and any informational and marketing materials.

HOW TO ENTER FOR PORTFOLIO REVIEW:

You may submit up to 10 images. A digital file of each image must be submitted by upload found within the entry form, which will be given to entrants upon submission payment at www.asofp.com/museum-project/. Entrants must complete the required form for each entry.

Uploaded images must be .jpeg or .jpg format, quality 10, sRGB color space, sized to 4,000 pixels on the longest side, and no larger than 10 MB. Each entry must be identified with the maker's initials and the title with underscores between each word, for example: LAK_See_Spot_Run.jpg. No identification of the maker's name should be visible on the submitted image, such as a signature, watermark, logo, or initials.

Information requested at the time of entry will include contact information, maker's name, title of image, and optional brief description of presentation and materials used in the creation of the artwork. Each entrant must have their own valid email address.

Note: If your image is selected for the collection, additional information will be requested upon notification, and will be due **on or before September 16**. For more details, see the section "Requirements of Entrants whose Images are Selected", below.

ETHICS AND ENTRY ELIGIBILITY:

To be eligible, a work must have been created by the entrant. This applies to all images in a composite. The entrant certifies that they are the sole creator and copyright owner of the submitted work. Other than printing and display, the image must only be touched by the maker in every aspect, including but not limited to capture, retouching, enhancement, embellishments. The maker may use physical backgrounds painted by another artist if such backgrounds are photographed with the subject. The maker may also use a professional printer and framer, and digital brushes created by another. If two makers have created the image together, both names should be submitted with the entry.

No entry can be created in part or whole using text-to-image prompts that use Artificial Intelligence (AI) image-generating technology software that is intended to create whole images and backgrounds entirely from programmed images. A human must have had creative control over the work's expression. Images and their elements must be created with traditional elements of authorship. However, non-text-to-image prompted elements (such as Photoshop's automations like generative expand) may be used in image creation.

Images that are determined to violate the AI statement above will be disqualified.

Images that contain sexually explicit themes, obscene, violent, or other objectionable or inappropriate content, as determined by ASP at its sole discretion, are ineligible for the exhibit.

The entrant has obtained and has access to all necessary releases (model or property) and agrees to hold ASP harmless against all claims and liabilities arising out of any ASP display, publication, promotion, or other use of each image submitted to ASP's image competition.

For an image in which a person is recognizable, you must be prepared to provide a model release from the subject or, in the case of a minor, the subject's parent or guardian, to ASP.

Similarly, entrants whose images depict other people's work (such as sculptures, statues, paintings, and other copyrightable works) must be prepared to provide a release from the rights holder to ASP upon request. When photographing the work of others, it must be as an object in its environment and not a close-up of another person's creation.

If the entrant is unable to provide all required releases, ASP at its sole discretion reserves the right to disqualify the submission. Images which violate or infringe upon another person's rights, including but not limited to copyright, are not eligible.

If it is determined that a photographer has used a ghost artist or stock piece in any way, ASP reserves the right to remove the image by immediate disqualification from the salon selection without refund or explanation.

No work accepted into a previous Museum Project collection may be entered. However, should we have a themed call in the future, the committee may consider art that has been accepted in a previous collection.
